

### Montage Art information for shows

Replace the information in the table with your information

Do not use “or ‘ in your text as they don’t translate well.

Any questions just call 262-424-1570

Send .JPG files of the artwork separately (not in the document)

Send images as .JPG files separately. JPG files should be less than 100 KB. The size of the files effect the amount of time it takes to bring up the image on the web site. If you do not know how to do this I can do it but it is better if you do it to your satisfaction. I can talk you through it.

## Instructions for right side information

Keep in mind that the viewers may not have seen the piece in person so describe everything including the frame.

- Enter the height and width just as above as the program that produces the site will parse the information using the H and W to find the size digits and size your image accordingly. You should round to the nearest inch. Always use inches.
- Do not use quotes or double quotes in this information. The information is being passed through 3 computers, my computer while developed, a unix based computer which will display the web site, and then being passed to the Square computer. Along the way quotes ad double quotes get interpreted differently, the unix site translates the quotes as AE.
- Please put all of your artwork for an event in one Word document. Put your name and the show name in the title.
